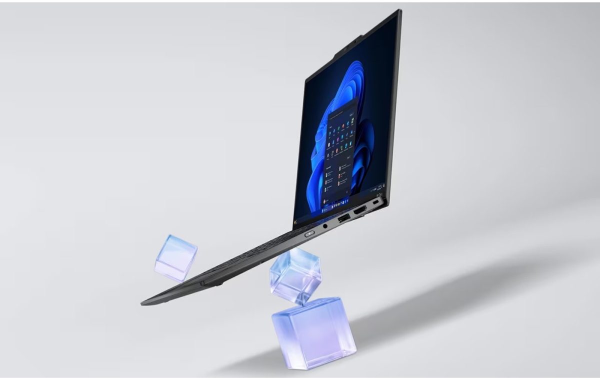
NO SCRIMPING ON PORTS

Tips the Scales on Features — Not Weight

The ThinkPad X1 Carbon Gen 13 Aura Edition weighs less than a kilogram, so you can manage it with one hand — and open it easily with one finger. But the best part? This super-thin laptop includes lots of connectivity options to hook up a monitor, quickly charge other devices, transfer files, and even plug in a headset if you're old school.



WORK ON YOUR TERMS

Powered From Dallas to Dubai

Enjoy amazing performance efficiency with extended battery life to power through your day — and night — or a flight from Dallas to Dubai. Don't worry about having to plug in. But when you do need more juice, the GaN charger saves power and charges up to four times faster than a conventional AC adapter.

AI ISN'T TAKING OVER — YOU ARE!

Next-Level Intelligence

Fueled by Intel® Core™ Ultra (Series 2) technology, this ThinkPad X1 Carbon uses AI to help you achieve more. Expect ultraresponsiveness, increased productivity, time savings — and better data privacy with AI tasks running locally, not in the cloud.

LOW CARBON FOOTPRINT

Efficient Inside, Recycled Outside

This X1 Carbon is even better than previous generations when it comes to sustainability, featuring energy efficient certifications and 100% plastic-free packaging that's Forest Stewardship Council® certified. It's comprised of recycled carbon fiber, recycled magnesium, and recycled plastic—and several components use low temperature soldering*.

Haptic TouchPad or Glass TrackPad

Our ThinkPad keyboard improves accessibility with tactile markings. The glass TrackPad or haptic TouchPad, along with our iconic red TrackPoint provide navigation — and with a double tap on the latter, a quick menu opens to optimize audio-video settings and even take notes with the Dictation Toolbar for handy speech-to-text transcription.

PRIVACY & PROTECTION

Security Like Your Business Depends On It

The ThinkPad X1 Carbon, Lenovo Aura Edition boasts multilevel security. ThinkShield, our comprehensive suite of security solutions, boasts discrete Trusted Platform Module to safeguard critical data with encryption. Biometrics provide extra protection too. With Intel® Core™ Ultra, you get AI-enhanced threat detection and defense — even below the OS.

THINKPAD TOUGH

When Reliability Isn't Optional

We use the US Department of Defense MIL-STD-810H for a balance of reliability and durability in ThinkPad laptops. Meeting or exceeding 12 standards, 26 procedures, and 200+ quality checks ensure these devices run in extreme conditions, including harsh variables like Arctic wilderness, desert dust storms, extreme temps, pressure, vibration, and more.
